Horizon Global announced on April 13, 2018 that the Company will be consolidating its Horizon Global Americas segment facilities in Solon, Ohio and Mosinee, Wisconsin into its Plymouth, Michigan location. The focus of consolidation is to bring together all roles and responsibilities of Horizon Global Americas team, with the exception of manufacturing and distribution facilities, into a primary location. This integration will align areas of the business such as sales, engineering, product development and customer service in order to improve Horizon’s ability to stay close to its customers and deliver solutions and products to meet their performance needs.

The Company will be completing the integration over the next several months and several roles will be relocated to the Company’s Plymouth, Michigan location.

According to Carl Bizon, Horizon Americas President, “The recently announced initiatives to bring together our U.S. based offices will help ensure that we remain equipped to meet our customers’ performance needs and deliver unique manufacturing and technical solutions. Having teams like engineering and product development working more closely together aligns with our larger goal to better serve our customers. Bringing our Americas team together is something we have wanted to do for some time now as part of a comprehensive, strategic integration of our brand operations and supporting infrastructure.”

“Horizon Global is a leader in the global towing and trailering industry with the #1 branded position,” said Mark Zeffiro, Horizon Global’s President and Chief Executive Officer. “The Horizon Americas team is focused on delivering innovative solutions to meet the needs of our customers, and the new structure of the organization is designed with that in mind. Additionally, bringing the team together in one location will help support our cultural efforts in North Americas as part of our broader global organization.”
